

TIMELINESS HERITAGE *by Preciosa*

TIMELINESS HERITAGE

About Preciosa Lighting

Our magic lies in the endlessly fascinating ways we combine the elements of glass and light, resulting in uniquely brilliant classical and contemporary fixtures, illuminated glass fountains, walls, ceiling decorations, sculptures and decorative objects.

Three centuries of world-renowned glassmaking skills have been handed down from generation to generation of PRECIOSA master craftsmen. Today, we pair this artistic heritage with state-of-the-art scientific and technological innovations,

enriching, nurturing and further developing the art of illuminating glass, taking it into new realms, imagining and reimagining what is possible.

PRECIOSA Lighting offers complex custom-designed lighting solutions from design through production, installation and follow-up maintenance. We continually refine our portfolio, providing our clientele with the widest selection of design styles, types, and sizes for both commercial and residential use.

The luminaries in the **Timeless Heritage** collection share a common essence: all are entirely handcrafted from **traditional glass** and **metal components**, constructed with precision and the utmost care. They include the most popular classic chandelier designs from our historical archives, complimented with new pieces culminating in a collection unbound by **trend—ageless creations** you can cherish forever.

Lighting Evergreens

Chandeliers of simple shape and clean lines, Lighting Evergreens are subtly decorated with engraving, optical décor or wound glass fibers that make the beauty of the glass the focal point. The two timeless designs, Egmont and Vltava, have been produced at PRECIOSA for over 70 years—the perfect representation of the exquisite art of Czech glass craftsmanship.

KOCO RISTORANTE, THE KOLOWRAT PALACE, PRAGUE, CZECH REPUBLIC

Egmont

This timeless Dutch-style chandelier is composed entirely of hand-blown glass components, designed to be suitable for any interior. It is available in a variety of sizes and colors.

Bohemian Classic

The cut-glass chandeliers on the following pages are examples of PRECIOSA's collection of hand-made classical lighting for luxury interiors. The richly hand-cut components, resembling fiery gemstones, are complemented with cut trimmings. These traditional style luminaries may be transformed into contemporary designs through the creative use of colored glass or various finishing on the trimmings.

Praha

Prague comes in several size and color variations and has been a pillar of the Bohemian Classic line for more than 50 years.

A contemporary version of this classic chandelier, created with irregularly hung trimmings of different sizes accentuated with a Marea finish, is just one example of the ease with which it can be adapted to contemporary style.

Maria Theresa

Chandeliers bearing the name of Empress Maria Theresa span more than three centuries, first produced 1743 in honor of her coronation as Queen of Bohemia. All Maria Theresa chandeliers include a flat metal arm encircled with strips of glass joined with rosettes and beads. The following pages depict PRECIOSA's updated interpretation of this classic design, including three new variations of ROI and two of the classical BARON, one in the traditional style, the other in a more contemporary design with a metallic finish.

Light Elegance

Many of these unique pieces, distinguished by their hand-shaped smooth and profiled metal tubes and molded casings, inspired by French and Dutch styles, have been produced at PRECIOSA for more than 60 years. They can be accessorized with simpler cast metal parts, hand-blown glass elements, and various types of trimmings.

Royal Heritage

Shaping and casting in sand molds, considered one of the royal disciplines in the creation of classical luminaries, is a PRECIOSA specialty. The large decorative components, often adorned with crystal trimmings, pay glowing tribute to the exquisite craftsmanship and engraving skills of our glass artisans. Royal Heritage chandeliers are suitable for grand and luxurious interiors. The following are examples of our exclusive collections inspired by Art Nouveau, Classical and Empire styles as well as contemporary takes, incorporating metal casting with glass.

Brilliant

Delicate cut crystal in all its dazzling brilliance takes center stage in these magnificent light fixtures, with minimal inclusion of metal components. The following pages illustrate our expanded 0524 collection and our 1216 collection of stairwell and ceiling-mounted prism chandeliers.
