## HISTORY

Bruno Costenaro was born in 1940 in Bassano del Grappa ( Vicenza ). During his childhood he learnt the secrets of ceramic working in several factories. Feeling inclined to run his own business, in 1965 he set up the company "Ceramiche Bruno Costenaro".

Every sample is thought and developed by Bruno Costenaro himself, inspired by italian baroque and classic style. The observation of work art like paintings, sculptures, churches and villas inherited by italian masters, becomes a source of inspiration for the creation of new shapes.

Mixing up creative fantasy, taste and originality, the raw clay turns into a real shape; it becomes an unique object finished by experienced hands. In a world full of fakes, the artist must be inimitabile and proud of his originality. Each creation has a story, made of inspiration, tradition, art and ideas. Every artistic object is always mixing with contemporaneity, showing its beauty, charm and also functionality. Accurately reproduced from its original shape, every ceramic is worked following Bruno Costenaro's philosophy, based on continuous research of perfection to reach a sublime and unquestionable quality.

Thanking to these principles "Ceramiche Bruno Costenaro" is nowadays a successful company. This name is known all over the world and the high quality of his artistic products is able to satisfy any customer's request.

## QUALITY

Every piece of work signed "BC" has been hand made inside our factory, following meticulously all necessary processes to achieve a perfect product. This product has been well-finished in order to obtain the highest level of quality.

Once the sample has been created, the prototypes are accurately reproduced. All pieces are hand-finished and worked with varnishes and enamels without lead. Thanking to this method we reach a coloured and vitrified product, which can be shining or matt. Using decorations at "third fired", objects are decorated to create unique collections.

The utilization of 24 karats gold and platinum, hand -painted by our specialized masters, give another touch of great value to our works. Some shapes are enriched with application of bases and handles in brass, swarovsky crystals and cherubs of porcelain. All our works are countersigned by their own special certificate and by our fired logo BC: this is their guarantee of authenticity. Authenticity of a work completely made in Italy, well finished in every detail, refined and enreached of a wonderful charm that will last forever. The items are packed in carton boxes by a modern packing machine that create two soft pillows wrapping up the delicate object. Thanking this modern way of packing we have never had any problem of broken merchandise or ruined pieces. However all the carton boxes are included in a euro palette (80 cm breadth x 120 cm depth), so that the goods is more safe and there aren't any problem of missing items.

Our huge range of products includes centerpieces, fruit-stand, vases, trays, plates, tables, sideboard mirrors, console, photoframes, coloumns, cachepot, candleholders, clock, swans, shells and lamps.
