“Almerich Classic” is a leading lighting brand; we set a trend and are a source of inspiration. Our products are unique”.

We are pleased to present our current standard collection in this new catalogue. This collection embodies our craft which has been developing since 1943 and represents our creativity, innovation and exclusiveness in the high-end international decoration market. All these aspects have given us the privileged position that our brand “Almerich Classic” currently enjoys in over sixty-five countries.

“Almerich Classic” es una marca Líder en nuestro sector, marcamos tendencia y servimos de inspiración. Nuestros productos son inimitables.

Este catálogo que tiene entre sus manos es nuestra oferta estándar actual, es el resultado de nuestra trayectoria desde 1943, donde se concreta nuestro oficio, creatividad, innovación, diferenciación y exclusividad para la “Alta Decoración Internacional”, todo ello ha conseguido el posicionamiento tan positivo que tiene nuestra marca “Almerich Classic” en más de sesenta y cinco países.

We have been manufacturing with the best quality standards for seventy years. Our unique and timeless designs have resulted in the presence of Almerich products in the antique dealers' market, which is a great recognition of our product philosophy.

Maintaining consistency in all aspects of our manufacturing process gives our products a distinctiveness that is recognized by all professionals even without seeing the label. We design and manufacture in our facilities in Valencia and we only work with European—basically Spanish—suppliers.

In spite of our wide range of products, we also receive exclusive product requests daily from the contract market: residential villas, restaurants, hotels etc.

Cumplir setenta años fabricando siempre con nuestros estándares de máxima calidad de mercado sobre nuestros diseños diferenciados e intemporales ha provocado que ya existan productos Almerich en el mercado de los anticuarios. Esto es en sí mismo un gran reconocimiento a nuestra filosofía de producto.

Mantener una coherencia en todos los aspectos de la marca permite tener una personalidad que hace reconocible nuestros productos para los profesionales aún sin ver la etiqueta. Diseñamos y fabricamos en nuestras instalaciones de Valencia, solo contamos con proveedores y colaboradores europeos, fundamentalmente españoles.

We work on our clients' own designs and we can also customize our products, making the necessary adjustments in terms of finishes, sizes, number of lights and the different types of decoration we offer.

We hope that this new catalogue will be a useful tool to help us work together with our clients and will allow us to share our continuing success to our mutual benefit.

A pesar de nuestra gran oferta también atendemos a diario peticiones de productos exclusivos para los mercados del Canal Contract para Villas Residenciales, Restaurantes, Hoteles etc.... sobre diseños de nuestros clientes, de la misma forma que podemos fabricar cualquier referencia estándar de nuestro Catálogo General realizándole los cambios de acabados, tamaños, números de luces que se requieran con cualquiera de las diferentes decoraciones que ofrecemos.

Estamos seguros que este nuevo catálogo va a reforzar nuestras relaciones comerciales para seguir cosechando y compartiendo éxitos en beneficio mutuo.

# TECHNICAL TEXTS

## TEXTOS TÉCNICOS

- In Almerich, the design process is entirely developed by us. All our pieces are produced exclusively, from bronze to glass; everything that can contribute to our products' uniqueness and exclusiveness is taken into consideration
- We work on an industrialized handicraft production basis. All the external metallic pieces are made of bronze, which is melted, laminated, patterned, carved or worked in any other handcrafted way. These pieces are only industrially produced to improve their quality when this is possible.
- When the pieces have been mechanized, assembled and decorated, they receive a varnish protective layer so that they remain unchanged with the passing of time.
- The correct maintenance of the bronze surfaces only requires dusting them. It is not recommendable to apply any kind of solvents or abrasive products since these would damage the pieces permanently.
- The glass shades can be washed with soapy solutions provided that they are not chemically aggressive.
- All the electrical and electronic parts and their installation comply with the existing guidelines and international regulations of the target markets.
- Next to each reference there is information about the maximum measurements, type of lampholder, maximum recommended power during the installation and the final presentation as it appears in the catalogue.
- We decline any responsibility for any detrimental action against the minimum standards of proper use and maintenance of our products.

- En Almerich hacemos el diseño de forma integral, todas las piezas son exclusivamente nuestras, desde el "bronce" al vidrio, todo lo que puede aportar diferenciación y exclusividad.
- Nuestra Producción es una Artesanía Industrializada. Todas las piezas metálicas externas son de "bronce": fundido, laminado, estampado, entallado o fabricado por otro diferente proceso artesanal y solo se industrializan para mejorar su calidad cuando ello es posible.
- Todas las piezas después de mecanizadas, ensambladas y decoradas tiene una protección de barniz para mantenerlas inalterables con el paso del tiempo.
- El correcto mantenimiento de las superficies de bronce solo requieren quitarles el polvo, nunca hay que aplicar disolventes o abrasivos pues las perjudicarían sin solución posterior.
- Las tulipas de vidrio se pueden lavar con soluciones jabonosas siempre y cuando no sean agresivas químicamente.
- Todos los componentes eléctricos y electrónicos así como su instalación cumplen las normas establecidas en los mercados de destino.
- Al lado de cada referencia aparecen las medidas máximas, el tipo de portalámparas, la potencia máxima recomendada a instalar y el Acabado que aparece en el Catálogo.
- Cualquier perjuicio que se cometiera contra las mínimas normas del buen uso y mantenimiento de nuestros productos nos eximen de cualquier responsabilidad.
